Bergmann Associates – SWE Rochester Explorer Post

As our Outreach efforts continue, the most recent Explorer's Post visit to Bergmann Associates on March 15th was a great experience for our high school girls. As a full service consulting firm, Bergmann Associates was able to compile staff members to represent many STEM fields including architects, interior designers and several types of engineers. This wide range of experience will help these young students decide on a college and future career. A special thanks to the very involved SWE member Mackenzie Zimmerman for organizing this event, and the many other Bergmann staff who volunteered their evening to educate prospective female engineers and scientists. We are looking forward now to our last Explorer's Post for this academic year with SPX on April 12.
